Guaranteed Fee Services for Single Family Real Estate Buyers

We know that purchasing real estate can be a stressful and financially challenging process. That is why we have committed to provide our clients with an easy and reliable way of making the decision to work with our office. Our fees for the services listed below are guaranteed. You choose what level of service that fits your needs and budget and we perform.

Basic Package

Our basic service package is for buyers who don't require detailed counsel on their transaction but would like the peace of mind of having the contract looked at before they sign.

Standard Package

The standard service package provides a more detailed review of the contract. This package is for buyers looking for legal counsel on the terms of the contract but don't have a complex transaction that requires in-depth counsel.

Full Package

A full service package provides a comprehensive review of the contract and the transaction. This package provides unlimited calls and e-mails and is appropriate for transactions that won't likely require multiple revisions. It also includes the review of important settlement documents.

Premium Package

Similar to our full service package, the premium package provides a comprehensive review of the transaction and contract with unlimited calls, e-mails and revisions as well as providing representation at closing and additional document preparation.

Settlement and Closing Discount

If our office will be acting as settlement agent (or closing attorney) for your mortgage lender we offer a substantial discount on our fee, as noted below. Contact our office for details on any of our services.
